Slleman, Yogyakarta, Indonesia

I am a 7th semester student of S1 Informatics with a concentration in Database Programming. I have high self-confidence strong work spirit, and sufficient experience in web development and machine learning. With my programming skills, I am able to bring creative and efficient solutions in solving various problems in the field of web development. In addition, I also have a keen interest in the exploration and development of skills in machine learning, particularly to address the challenges that arise in the development of artificial intelligence. With this background, I am confident that I can make a positive contribution. s

Education

Amikom University Yogyakarta - Yogyakarta

Sep 2022 – Present

Informatics; Faculty of Computer Science GPA: 3.93/4.00

Relevan courses: Web Programming, Database Programming Courses.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

Sep 2024 – January 2025

Relevan courses: Machine Learning Cohort

Professional Experience

Laboratory Assistant - Yogyakarta

Feb 2024 – July 2025

As a laboratory assistant, my job is to assist the lecturer during the practicum session. Sometimes, I was also assigned to fill in for the lecturers when they were absent. In this role, I am required to facilitate effective communication between the lecturer and other students and be able to help provide understanding of the material being taught.

Programming Course Laboratory Assistant

Feb 2024 – July 2024

- Teach more than 70 students per semester about OOP (Object Oriented Programming) using C#

Data Communication Course Laboratory Assistant

Feb 2024 – July 2024

- Teach more than 100 students per semester in data communication courses, covering topics such as data transmission, and wireless communication and microcontroller simulation.

Database System Laboratory Course Assistant

September 2024 – January 2025

- Teach more than 100 students per semester in data communication courses, covering topics such as data transmission, and wireless communication and microcontroller simulation.

Advanced Programming Course Laboratory Assistant

September 2024 – January 2025

- Teach more than 100 students about MVC (Model View Controller) using C#.

Database Programming Course Laboratory Assistant

Maret 2025 – July 2025

- Teach more than 50 students about MVC (Model View Controller) using C#.

Big Data Course Laboratory Assistant

Maret 2025 – July 2025

- Teach more than 50 students about Machine Learning to predict Data kontinu using regression algorithms

Web Programming Course Laboratory Assistant

Maret 2025 – July 2025

- Teach more than 100 students about creating website using PHP

Organization Experience

Informatics Student Association – Staff of the Research and Development Division Management

August 2023 - Present

- Being the executor in the draft agenda and work program that has been formed.
- Manage and develop HMIF website.

National Informatics Seminar 2023 Event Manager

August 2023 - Present

- Create and organize the event. Success to get a total of 100+ participants.

Expo 2023 Publication, Decoration, and Documentation August 2023 - Present

- Coordinate the creation of publicity materials such as brochures, flyers, and social media.
- Design and manage the decoration at the Expo stand, creating an attractive and professional environment.

Web Development 2024 Front-End Developer

- Contribute to the creation of user interfaces and regular updates of the HMIF website.

PPM Amikom 2024 Mentor Mobile

- Ensure that all mentors in the class carry out their duties properly.
- Coordinates more than 100 mentors in the class.

Workshop Informatics 2024 Project Leader

- Create and organize the event.

Workshop Informatics 2024 Steering Committee

- Directing the committee to carry out its duties properly

Lecture Project Experience

-
- [Cashier Program](#) (2022): handling for creating purchase and sales transaction logic using C++.
 - [PIC Web Informatic Association](#) (2023): handling for the design, creation and maintenance.
 - [Cinema Booking System](#) (2023): handling for creating signup and login features using C++.
 - [Financial record app](#) (2023): handling for designing and creating UI using C# language with Bunifu framework •
 - [Cashier Program](#) (2022): handling for creating purchase and sales transaction logic using C++
 - [Web Company Profile](#) (2024): handling frontend and backend development to create a dynamic website using Bootstrap & PHP.
 - [Destination Recommendation](#) (2024) : Handling building model machine learning for give recommendation about place destination
 - [Fullstack Web Developer HMIF](#) (2025) : Developed an organizational information system using Laravel 11 and MySQL, including CRUD features, user authentication, and dynamic content management.
 - [Stock Pedictions](#) (2025) : Handling building model to predict stock BCA Bank using Regression Linear, XGBoostRegressor and Support Vector Regression
 - [Online Logbook](#) (2025) : Handling create a website to store photos as an online logbook. Using Next.JS
 - [Simiko](#) (2025) : Managing IT project development lifecycle, coordinating team workflows, setting project milestones, and ensuring successful delivery using Agile methodology.

Skills

-
- **Language:** Indonesia (native) , English (intermediate)
 - **Pemrograman:** HTML, CSS, CSS Framework, C#, C++, PHP, Python, Laravel, Javascript, MySQL. Postgree
 - **Design:** Figma, Canva, Adobe Premiere Pro.
 - **Personal Skills:** Negotiation, Communication, Problem Solving, Critical Thinking, Adaptive and Flexible, Leadership and Teamwork
